**RTM Change** ☐ **Start New Baseline** ☐

**Problem**

CD-ROM software is planned for implementation in Phase III Release A. Currently there is no CD-ROM device in the DataServer Subsystem development environment.

**Proposed Solution**

A CD-ROM device is currently installed as part of the Mini-DAAC hardware configuration. Proposal:

1) Provide physical access to STMGT developers to the CD-ROM device on dipe1sun from 5/6/96 through Release A code turnover or 6/29/96 (whichever comes later)

2) Provide writeable media (minimum three) to STMGT developers for CD-ROM software development

3) Provide a user account which has limited pseudo-root privileges to Dag Hestnes (the STMGT developer for CD-ROM software)
